

LMS Online Quiz – Quiz Overrides

Dates, timing and number of allowed attempts may be changed for individual users or groups by following the links *Group Overrides* or *User Overrides* in Quiz administration. In situations where two group overrides may apply to a single user, the most lenient date is used. For "Open the quiz" dates, this means the earliest possible date is used, for "Close the quiz" dates, this means that the latest possible date is used. Note also that if there exists a user override for a student, it will always take precedence over any group overrides.

Group overrides

To change a quiz setting for a particular group, click the "add group override" button in *Quiz Actions Menu > Group overrides*, make the changes you wish and save or enter another override.

User overrides

To change a quiz setting for a particular user or users, click the "add user override" button in *Quiz Actions Menu > User overrides*, make the changes you wish and save or enter another override.
